

# Stack Implementation

Using LL

top = null

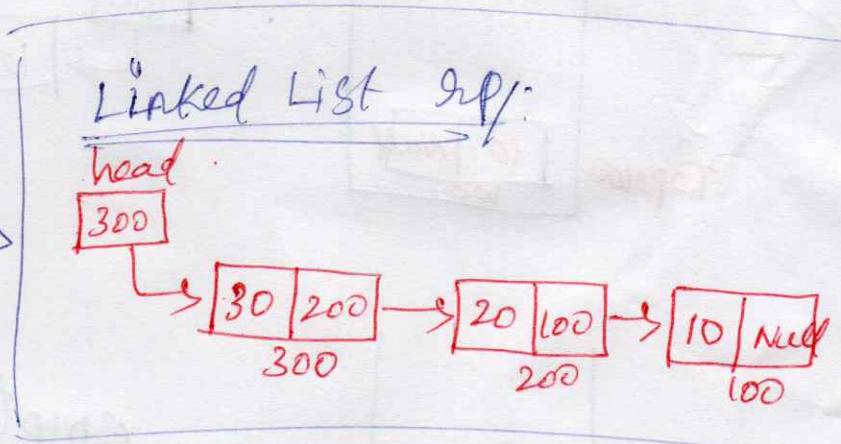

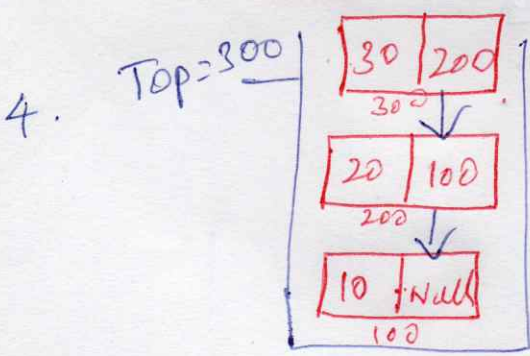

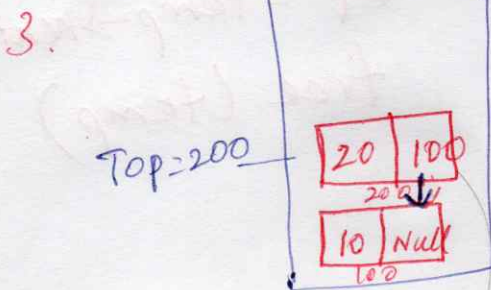

## Push operation

void push(int x)

```

{
    struct node *newnode;
    newnode = str(
    newnode -> data = x;
    if (top == null)
        newnode -> next = null;
    else
        newnode -> next = top;
    top = newnode;
    Pf("Success");
}
    
```

## display
